

aylin
ulaba
designer
& UI developer

hello!

As a Designer and User Interface (UI) Developer with 15 years of experience, specializing in Agile methodology, branding, and User Experience (UX) Design, I have a strong history of working with diverse technical teams to create scalable code and web/mobile solutions. I am adept at managing stakeholder expectations throughout all phases of the project lifecycle, striving for excellence in every brand and UI development endeavor.

interests

Fueled by caffeine, obsessed with drumming, dreaming of a world tour on my bike. Proud mom to two royal feline dictators. Writing takes me to another universe, and Xbox? My focus could rival a laser beam!
